DETAILED ACTION

1. Claims 1,7,9-15 are pending in the instant application and claims 2-6, and 8 are cancelled.

Priority

2. This application is filed on 12/19/2005, which is a 371 of PCT/EP04/51167, filed on 06/18/2004, which claims benefit of 60/482,566, filed on 06/26/2003, and claims benefit of 60/509,808, filed on 10/10/2003, and claims benefit of 60/544,210, filed on 02/13/2004, which claims priority of DENMARK PA 2003 00939, filed on 06/24/2003, and claims priority of DENMARK PA 2003 01487, filed on 10/09/2003, and claims priority of DENMARK PA 2004 00228, filed on 02/13/2004.

3. ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1,7,9-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims

1,7,9-15 are drawn to the "proviso" in claim 1, which has no antecedent basis in the specification.

This is a NEW MATTER rejection. Removal of all new matter is required, In re Russmussen 210 USPQ 325.

4. The rejection of claims 12-14 under 35 U.S.C. 112, second paragraph for the term "alleviation" is withdrawn in view of the applicant's amendment on paper dated 09/11/2007.

5. The rejection of claims 12-14 under 35 U.S.C. 112, first paragraph for "prevention" is withdrawn in view of the applicant's amendment on paper dated 09/11/2007.

6. The rejection of claims 1,3-4,6, and 10 under 35 U.S.C. 102(b) over Ananthan et al., Yasuhiro et al., Saltarelli et al., Bakken et al., Chenard et al., Himmelsbach et al. is withdrawn in view of the applicant's amendment and argument on paper dated 09/11/2007.

7. The rejection of claims 12-15 under 35 U.S.C. 112, first paragraph for, as failing to comply with the enablement requirement is maintained for reason of record. Applicants argue that the examiner is reminded that, "As long as the specification discloses at least one method for making and using the claimed invention that bears a reasonable correlation to the entire scope of the claim, then the enablement requirement of 35 U.S.C. 112 is satisfied." It is examiner's position that on the instant specification applicants have only shown to make the

Art Unit: 1625

instant compounds. There are no working examples to show the correlation between the instant compounds and treating any and all known diseases.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**.

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
